

Project Manager

Position: Project Manager
Company: XOCEAN CANADA
Qualification: 3rd year E.I.T. qualification in Engineering or higher, PMP or other relevant discipline
Location: Atlantic Canada

About XOCEAN

XOCEAN is an ocean data company – we collect data for clients ranging from mapping the seabed to monitoring the environment. However, we do this differently, instead of using conventional crewed survey ships, we have developed a marine robotic system known as an Unmanned Surface Vessel (USV).

XOCEAN CANADA is a wholly owned subsidiary of XOCEAN seeking to rapidly expand in North America.

Overview

Support the delivery of both internal and client projects within North America and Internationally.

Main Duties & Responsibilities

This role will be focused on the delivery of projects including internal technology development and client operational, based on our USV platform. While we are based in Nova Scotia, there is opportunity to work from Internationally. Duties and responsibilities include:

- Project Planning: Ensure both people and equipment resources are available to deliver our projects.
- Stakeholder Management: Regular reporting on project status to client and key stakeholders.
- Track and manage project budget to ensure margin / cost control achieved.
- Maintain and develop relationships with partners, subcontractors and vendors to achieve optimal project outcomes.
- Consents & Permissions: Secure required consents and approvals from local and national authorities.
- Manage and maintain Quality, Environment and Health and Safety standards including update, implementation, and management of all ISO processes as appropriate to the role.
- Implement, maintain, manage, and update all standard operating procedures and processes as appropriate.

On occasion this role may involve:

- Supporting sales activity including input into proposals, quotations, and client meetings.
- Supporting grant proposal development.

Requirements: Essential Skills / Attributes and Experience

Our ideal candidate will have a proven record of delivering projects with strong client relationship and people skills, someone with experience working in a team and in an open collaborative way. You will need natural presence and gravitas, excellent communication skills and be innovative in your approach.

- Minimum 5 years' experience in a similar role, preferably in Ocean Technology or Robotics.
- 3rd year E.I.T. qualification in Engineering or higher, PMP or other relevant discipline
- Excellent attention to detail, planning and adherence to deadlines.
- Proven ability to track and report on Project Finance.
- Excellent literacy, numeracy and IT skills including proficiency in Microsoft Office 365.
- Experience with project management software.
- Enthusiastic, positive, and proactive nature with a keen attention to detail.

Desirable Experience

- Software development on Ignition platform.
- Project management experience in the marine sector.
- Relevant marine qualifications such as Yachtmaster, Coastal Skipper, ICC (or equivalent).

Apply

- Applicants must demonstrate how they meet the essential criteria. Desirable criteria may be used for further shortlisting.
- Please apply online and follow the instructions, or submit your CV to careers@xocean.com.
